

Finding Videos in UDLib/SEARCH Databases

Many of the UDLib/SEARCH databases provide access to videos on a variety of topics. This guide will show how to access videos in each of these databases.

In Context Databases – Enter a topic in the search box. You will find links to available videos in the “On This Page” box on the right of the screen. Occasionally you will see a link to videos under the heading of “Everything” on the left side of the screen. This is true of all of the In Context Databases: Biography in Context, Opposing Viewpoints in Context, Science in Context, Student Resources in Context, U.S. History in Context, and World History in Context.

The screenshot shows the UDLibSEARCH Main interface. At the top, there are navigation links for 'Change Resources' and 'Return to My Library'. Below that, a search bar contains the text 'space exploration' and a 'Search' button. The page title is 'STUDENT RESOURCES IN CONTEXT'. A navigation menu includes 'Home', 'Browse Topics', 'Maps', 'Curriculum Standards', and 'Resources'. The main content area is titled 'Space Exploration' and features an image of a space shuttle with the caption 'Shuttle in Space'. A text block describes the Apollo 11 mission. To the right, an 'On This Page' sidebar lists various content types, with 'Videos' highlighted by a blue arrow. Below the main content, there are sections for 'Academic Journals' (1,025 items) and 'Primary Sources' (e.g., 'Letter from Joseph Kerwin to Richard Truly, July 28, 1986').

Brothers in arms
 American History, April 2014
From *U.S. History in Context*
[ILLUSTRATION OMITTED] A colorful flight of German Albatros D.IIIs swept high above the shell-blasted wasteland of northern France on April 13, 1917, hunting for prey. Second Lieutenant Lothar von Richthofen saw his...

The 'man of force' who saved Belgium: before Herbert Hoover became the scapegoat for the Great Depression, he was an international hero who led one of the greatest humanitarian relief efforts in history
 American History, April 2014
From *U.S. History in Context*
Belgium was vital in the summer of 1914. It was a thriving center of industry, finance and international trade, and owned vast mineral deposits in its African colonies. Closer to home, Belgium was neutral in the looming...

Britannica Online School Edition Archive - There is a link to this database on the Middle School and the High School UDLib/SEARCH databases pages. The archived version of Britannica has collections of video clips that are on average 2 or 3 minutes long and extended play videos that are on average 15 to 25 minutes long.

Go to the Britannica Online School Edition Archive and click the “View this level” bar for elementary, middle, or high school. Then look for the box to browse the video collection.

Britannica School – UDLib/SEARCH also links to a different interface for Britannica called Britannica School. Conduct a search in the search box for elementary, middle, or high schools.

Welcome to the **NEW Britannica School!**

Easy to use. Easy to find trusted information. Easy to *learn*.

Choose a level below to get started.

The interface shows three levels: Elementary, Middle, and High, each with a tree icon above it. The Elementary level has a small sapling, Middle has a medium tree, and High has a large tree. A blue arrow points from the Elementary level to a search box in the Middle level. The search box contains the word "volcano" and a magnifying glass icon. Below the search box is a green box containing three bullet points:

- Find fast answers and homework help.
- Explore videos and articles on famous people and places.
- Discover maps, photos, and illustrations for school projects.

[▶ Learn more about Britannica School](#)

If Britannica School has videos included for your topic, you will find a link to them on the left of the screen. **Be aware that Britannica School and Britannica Online School Edition Archive contain different sets of videos, so check both for a more comprehensive search.**

The screenshot shows the Britannica School search results page for the query "volcano". The page features a dark blue header with the Britannica School logo, a search bar containing "volcano", and navigation links for "Students", "Educators", and "Help". Below the header is a teal banner with the "Search Results" title and "My Britannica" link. A left sidebar lists content types, with "Videos" highlighted by a blue arrow and a white circle. The main content area shows "You searched for 'volcano'" and "DISPLAYING 1 - 3 OF 3 RESULTS." Three video thumbnails are displayed: a volcano, a lake with a volcano in the background, and a map of Italy with a volcano. The footer contains the Britannica Digital Learning logo and various links including "About", "Contact", "Subscription Form", "Copyright Guidelines/Terms of Use", "Legal Notices", "School and Library Information", and "Learn More", along with the copyright notice "© 2014 Encyclopædia Britannica, Inc."

World Book Student - Allows users to check the option to search for media items when a search phrase is entered. This leads to images and videos about the search topic.

The screenshot shows the top navigation bar of the World Book Student website. On the left, the logo reads "WORLD BOOK STUDENT" with "Welcome UDLib/SEARCH" below it. A search bar contains the text "solar system" and has a "Search" button. Below the search bar are three radio buttons: "World Book Student", "World Book Student + Kids", and "Media" (which is selected). To the right of the search bar is an "Advanced Search" link. Further right, under "OTHER WAYS TO FIND IT:", there are links for "CONTENT: By subject", "Alphabetically", and "Dictionary". To the right of that is "IMAGES & VIDEOS: By title" and "Atlas". Below the search bar are three featured sections: "FEATURED VIDEO" with a video thumbnail, "RESEARCH TOOLS" with a list of tools including "Citation Builder", "How to Do Research", and "My Research", and "BEHIND THE HEADLINES" with a list of news items like "Seattle Wins Super Bowl XLVIII in Rout over Denver".

The screenshot shows the search results page for "solar system". The top navigation bar is identical to the previous screenshot, but the search bar now shows "solar system" and the "Media" radio button is selected. Below the navigation bar, the page is titled "SEARCH RESULTS" and includes a "Back" link. The search results are categorized under "Pictures" and show "1 - 15 of 22 items". A sidebar on the left indicates "Search in: Pictures (22 items)" and "Videos (3 items)". The main content area displays a grid of 15 image thumbnails, each with a caption: "Solar system", "Objects in the solar system", "Earth in the solar system", "Jupiter in the solar system", "Mars in the solar system", "Mercury in the solar system", "Saturn in the solar system", and "Uranus in the solar system".

Science Online - Has a link to science-related videos on the right side of the entry page.

The screenshot shows the 'Facts On File SCIENCE ONLINE' website. The header includes the logo, user options (Guest | Folder Log In | Saved Items), and a search bar. Below the header is a navigation menu with links for Home, Explore Subjects, Browse Science Resources, and Help. A secondary navigation bar contains links for Science Dictionary, Conversion Calculator, Advanced Search, Search History, and Science Standards. The main content area is divided into three columns. The left column, 'Explore Subjects', lists various science fields with 'Biology' expanded. The middle column, 'Browse Science Resources', lists categories like Diagrams, Experiments, Biographies, Timeline, and Videos and Animations, with a blue arrow pointing to the latter. The right column features a 'Featured Video' player showing a video about climate change, and a 'Science in the News' section. A 'TODAY'S SCIENCE FEATURE' section at the bottom left highlights 'Meteorite Molecules: The Seeds of Life' with an image of meteorite samples.

Green Architecture

OVERVIEW

In the late twentieth century many citizens in Western societies began to recognize that if other societies consumed resources at the same rate that they did, the ecosystem soon would be exhausted and unable to reproduce itself. That recognition motivated the United Nations to charter the World Council on Environment and Development (WCED) to investigate ways in which the apparent conflict between economic development and environmental degradation might be reconciled. Under the auspices of the Brundtland Commission, the WCED published its findings as *Our Common Future* in 1987. That document, long considered the seminal text on sustainable development, defined sustainable development as "development that meets the needs of the present without compromising the ability of future generations to meet their own needs" (World Council on Environment and Development 1987, p. 8). In the conflict between economic development and environmental protection unsustainable development usually is associated with the industrial and ... [VIEW FULL OVERVIEW >>](#)
